PROFESIONAL SUMMARY

As a Full-Stack JavaScript Developer with over 4 years of experience specializing in building and deploying scalable, high-performance web and mobile applications. Proven track record of independently driving project development from concept to deployment while thriving in fast-paced team environments. Committed to leveraging modern tech stacks and AI-driven solutions to deliver robust innovations that directly impact business growth and operational efficiency.

TECHNICAL SKILLS

- FRONTEND:** VueJS, Nuxt JS, React JS, Next JS, Flutter, Ionic, React Native, Typescript, Tailwindcss, Bootstrap, Phoenix Framework, Laravel Blade, Debounce, Pinia, Vuex, Redux, Provider, Bloc, Jquery.
- BACKEND:** Node JS, Express JS, PHP/Laravel, RESTful API, PostgreSQL, MySQL, MongoDB, GraphQL, Elixir, C++, Python, Java, Redis, Javascript, Supabase, Sequelize, Jest/Supertest.
- TOOLS & CLOUD:** AWS Cloud, GIT, Nginx, Docker, MS Office, GCP (Google Cloud Platform), Vscode, Firebase.
- LEARNING:** Angular, Machine Learning, AI Engineer, Go, AI Prompt Engineer, IoT with Arduino, N8N Automation.

PROFESIONAL EXPERIENCE

PT. Personel Alih Daya Tbk (PERSADA) | Front End Engineer May 2025 - September 2025

- Architected and developed scalable frontend systems for HRIS & HRM applications using Next.js, Laravel, and Flutter, ensuring seamless cross-platform performance.
- Optimized application architecture and resolved critical bugs based on user feedback and rigorous QA testing, resulting in improved system stability.
- Integrated AI Prompt Engineering to enhance development workflows and automate internal application features.
- Collaborated cross-functionally with product managers, designers, and backend teams to deliver project milestones on schedule.

PT. Tricitta Synergy | Front End Engineer August 2023 - December 2023

- Designed a scalable, component-based frontend architecture using Vue.js, which significantly increased code reusability across three core applications within the Bapenda HRIS ecosystem.
- Played a pivotal role in the end-to-end development of the Bapenda HRIS Mobile App, Admin Web Panel, and a public-facing Career Web Portal.

PT. Kebun Technology Indonesia | IT Engineer May 2022 - August 2023

- Transformed complex UI/UX designs from Figma and Adobe XD into high-performance Single Page Applications (SPAs) with seamless API integration.
- Successfully implemented secure payment processing via Stripe and managed internationalization (i18n) for the Japanese e-commerce market.

PT. Asian Sigma Technology | Front End Developer July 2021- April 2022

- Engineered responsive and interactive web interfaces, ensuring high-fidelity implementation of design specifications and robust backend connectivity.
- Facilitated global market expansion by integrating multi-currency payment gateways and multi-language support (i18n) tailored for international users.

EDUCATION

- University of Pamulang** | B.S. in Informatics Engineering | *January 2024 - present*
- Hacktiv8 Indonesia** | Fullstack Javascript Immersive Bootcamp | *September 2020 - June 2021*
- PKBM YCAB Manggarai** | High School Diploma | *July 2017 - June 2020*

PROJECTS

- HRIS Admin & Career Web:** Internal HR management system and public recruitment portal.
- Shop Tajimingo:** The e-commerce app is produced for online shopping applications in Japan, The city of Tajimi.
- Coretan Saku:** This app turns the tedious activity of recording expenses into a fun experience like writing in a school diary.
- Entry Data System:** a web application to manage customers who want to register or subscribe to gas and electricity needs specifically for the Okinawa prefecture

CERTIFICATIONS

- AWS Certified Cloud Practitioner** - Amazon Web Services (AWS)
- Certified of Graduation:** Fullstack Javascript Bootcamp - Hacktiv8
